CONDUCTED PROJECTS and BIDS:

- BYS (Bilgi Yönetim Sistemi-Knowledge Management System) Project: Between January 2001 and September 2002, management of student records, grades and other academic affairs, along with preparation of course listings and printing of transcripts, have been carried out by a database application in Access developed by myself. In May 2002, the second phase of the BYS project has been launched. The project aimed to model the “business” focused on student lifecycle management: the system analysis has been carried out by me. Then, further client-server and 3-tier applications have been developed for the processes such as student and course registrations, advisor approval, grade submission and student records’ investigation via internet/mobile. The applications have been developed using Oracle tools (Forms, Reports) by the project team with two members, under my leadership. The Knowledge Management System has been extended to include modules for quality management according to the Bologna process, exchange management (Erasmus and other programs), surveys, financial accounts, health records, etc. A commercial software package has replaced BYS in 2015.
- Cibali Main Campus LAN (Local Area Network) Project: Feasibility study, preparation of the “Call for Tender”, examination of proposals, membership in the decision committee, supervision of the implementation, conduction of the acceptance tests. (Jun.- Oct. 2001)
- Cibali Main Campus infrastructure projects (computer laboratories, electronics laboratories, server systems, projection systems, laboratory furniture, software) Feasibility study, preparation of the “Call for Tender”, examination of proposals, membership in the decision committee, supervision of the implementation, conduction of the acceptance tests. (Mar.- Oct. 2001, jointly with another colleague)
- Bahçelievler Campus LAN (Local Area Network) Project and WAN (Wide Area Network) Project with the Gayrettepe Building: Feasibility study, preparation of the “Call for Tender”, examination of proposals, membership in the decision committee, contract with the Turkish Telecom, implementation, operation and maintenance (Sept.-Dec. 2000)
- Preparing parts of the University Promotional Catalogs related to the Engineering Faculty (2000, 2001, 2002), Faculty poster (2002) and multimedia for the promotion of the University (2002).
